SUMMARY

Results-driven Data Scientist with 5 years of experience bridging the gap between complex data, business requirements, and strategic decision-making. Expert in building high-accuracy GenAI systems and translating stakeholder pain points into automated, production-ready solutions that drive measurable business impact.

WORK EXPERIENCE

Associate Data Scientist, Gartner

Feb 2024 - Present

- **Autonomous Data Quality AI Agent**
 - Engineered an AI Agent using Llama-70b to automate data quality procedures in NLQ generation, reducing overall latency by ~83% and eliminating manual intervention.
- **Demand Sensing Intelligence Pipeline**
 - Architected a production-grade ML & LLM pipeline on Azure Databricks that extracts signals from millions of data points to drive business intelligence with 96.4% precision.
- **Content Intelligence & Alignment:**
 - Engineered a call-inquiry alignment quality system combining semantic matching with statistical rigor—applied robust variance tests on client quality ratings (QVR) to quantify misalignment patterns, directly improving retrieval precision and content-query matching accuracy for knowledge management systems

Data Science Specialist, Gartner

Mar 2022 - Feb 2024

- **Emerging Tech Trends Intelligence Dashboard**
 - Led cross-functional collaboration with stakeholders to define requirements and delivered a complete LLM-powered social intelligence platform from data ingestion to business insights.
 - Developed interactive Power BI dashboards translating ML outputs into actionable business intelligence - directly enabling 20+ client engagements, 3+ conferences, and 6+ published research notes, demonstrating clear business impact.
- **Role-based Hiring Recommendation Model**
 - Developed a mathematical similarity model to bridge the talent-business gap, involving stakeholder engagement to translate quantitative analysis into recruitment strategies.
 - Productionized model insights into a Hiring Guide Tool, directly contributing to 4+ published hiring guides on Gartner.com, translating quantitative analysis into recruitment strategies.

Programmer Analyst, Cognizant

Feb 2021 - Feb 2022

- Queried and validated large-scale datasets using SQL to ensure data accuracy for analytics teams.
 - Automated recurring data processing tasks, reducing operational workload and improving reliability.
-

EDUCATION

Master of Technology in Computer Science Engineering

July 2019 - July 2021

Jaypee Institute of Information Technology, Noida, India

- Specialization in Data Analytics.
- 8.8/10 CGPA.

Bachelor of Technology in Computer Science Engineering

Aug 2014 - Aug 2018

Maharshi Dayanand University, Rohtak, India

- 8.2/10 CGPA
-

SKILLS

- **Strategic:** Stakeholder Engagement, Requirement Gathering, Problem Structuring, Business Intelligence.
 - **Core Technical:** NLP, Machine Learning, LLMs, Generative AI, RAG, Statistical Analysis.
 - **Tools & Platforms:** Python, SQL, Databricks, Azure (DP-100 Certified), Power BI, Excel, PowerPoint.
-

ADDITIONAL INFORMATION

- **Languages:** Fluent in English
- **Certifications:** Microsoft Azure Data Science Associate (DP-100)
